#### DENIS EFREM NDIMBO

Denis was born in September 17, 1995 in Songea, Tanzania. His father passed away and his mother was left to take care of Denis and his three brothers. His mother had no education and no special profession that could provide enough money to take care of herself and her four children especially in matters of education. She decided to seek help from SWACCO, the local organization which works with Mwangaza Jitegemee Foundation. In 2007 SWACCO pledged to assist Denis and help him with his life. Denis still lives with his mother and helps to take care of her and the house. The foundation provides them with food and medical assistance when needed. The foundation also covers all of his schooling including tuition, school uniform, books and school supplies. He enjoys his friendships with the other kids at the orphanage and at school.

He has completed his studies in Standard Primary School and started Form I in Secondary School in 2012. He is making good preparations and SWACCO will help him succeed in his studies; he even dreams of becoming a doctor one day; with hopes of helping to care for the orphans in the future. SWACCO wishes that his dreams come true and pledge to help him succeed.
